

## QuickPay with Alexa

Welcome to QuickPay, a FREE new service that allows members to make bill payments from their Security Credit Union account via their Amazon Alexa device; the service does not currently support other smart speakers such as Google Home. To utilize the service, members must first link their Online Bill Pay account to their Alexa device. To do this, log into Online Banking via the link at [www.securitycu.org](http://www.securitycu.org).

Once you have logged into your account, please click the “Bill Pay” tab at the top of your screen.

From there, select “My account”:

In the "Voice bill pay" section, click the "Add Alexa" link.

## My account

### Pay from accounts

Add / Delete pay from account, edit nickname, or change default account.

[View accounts](#)

### Voice bill pay

[Add Alexa](#)

You will next be prompted to enter your email address and establish a password to enter into the Alexa App. When the information is entered, click "Submit".

## Voice bill pay

### Credentials

Create bill pay account linking credentials

The email and password will be used for account linking during the bill pay Alexa skill set up process only.

\* Required field

- You will need:
- An account with Amazon
  - A mobile device with the Alexa app installed
  - An Alexa enabled device

Email \*

Email is required

Password \*

?

Confirm password \*

After the credentials are created, you will need to proceed to the Alexa App installed on your phone to link the accounts. Note: In order to complete this set-up, you must be connected to the same WiFi network as your Alexa device.

### Voice bill pay

✓ **Success!**

Account link credentials created

#### Next step

1. In the Alexa App, use the search feature to select the iPay QuickPay™ skill and enable it.
2. Follow the on screen instructions and use the credentials you created in the "My account" page to link the skill to bill pay.

Members will receive an email (see below) from our Bill Pay service indicating that they may begin using voice bill pay, however members must link their Alexa account to voice bill pay before paying their first bill.

Exclusively for account ending in 0000

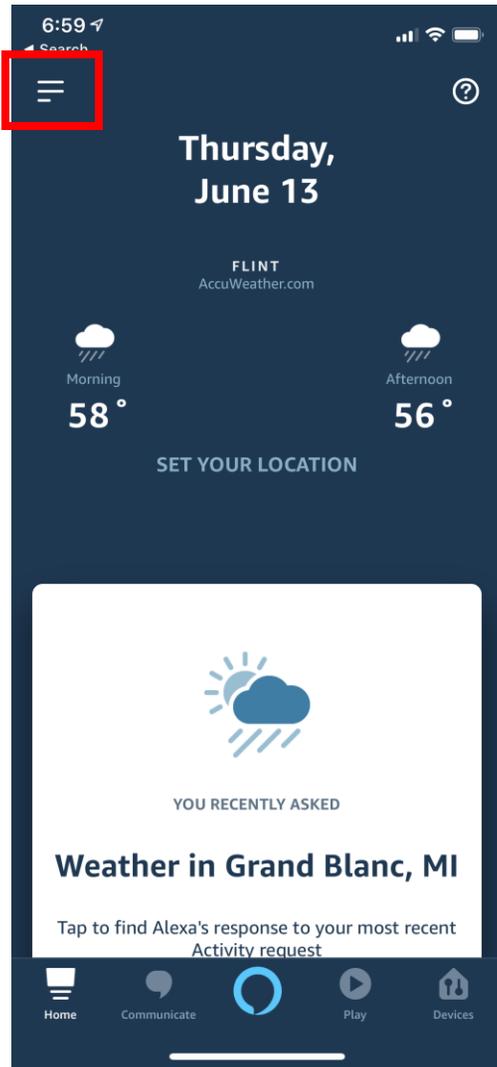

Your Alexa credentials have been added to your account and you may begin using voice bill pay.

To log in to your account, go to [www.securitycu.org](http://www.securitycu.org) (or type that website address into your browser).

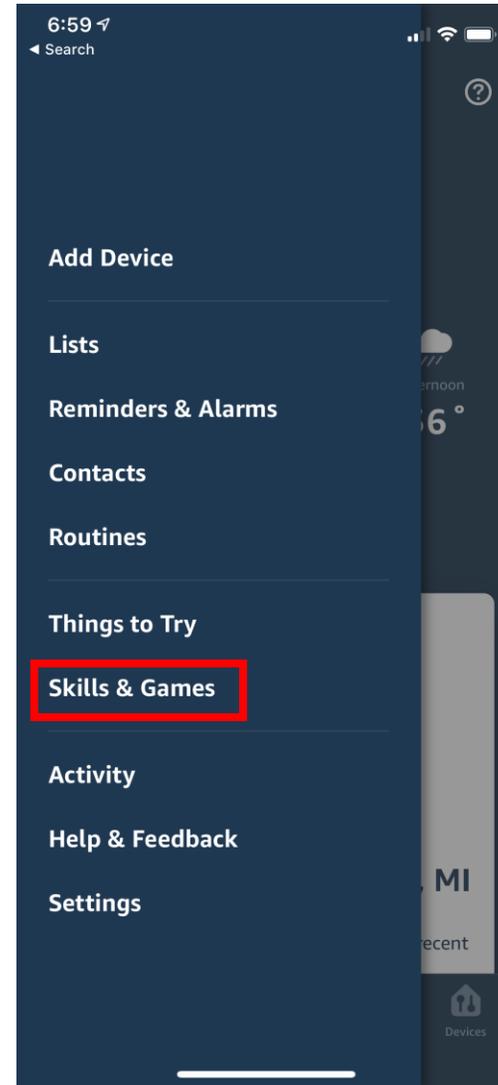

If you have any questions regarding your account, call 833-245-3566 and a customer service representative will assist you.

Bill Pay Customer Service  
Security Credit Union  
833-245-3566

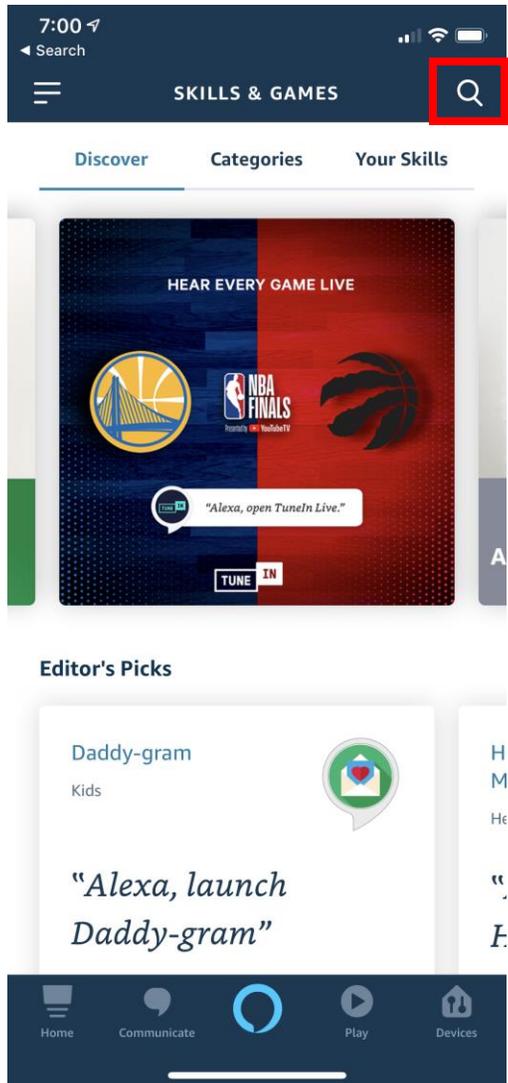

Open the Alexa App on your mobile device and click on the menu.

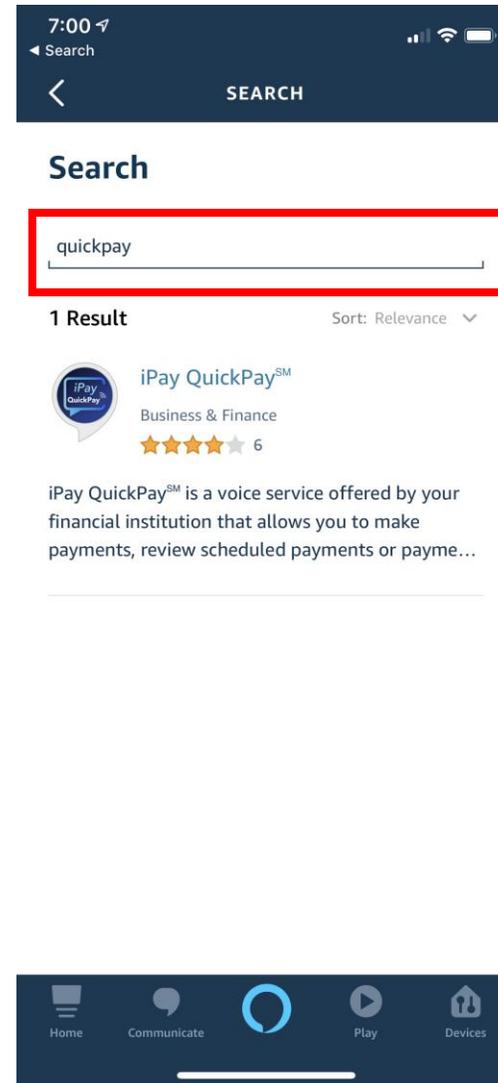

Select "Skills & Games" from the menu.

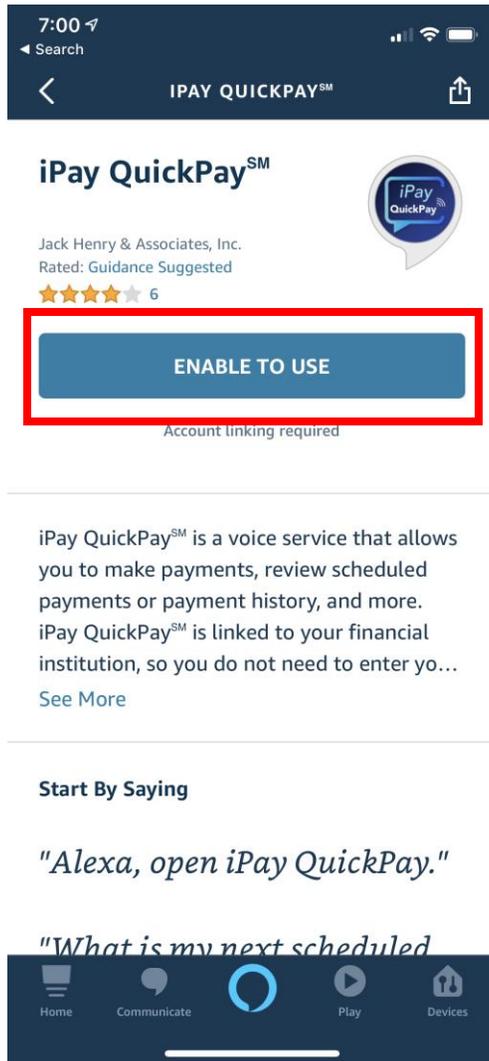

Select the "Search" icon.

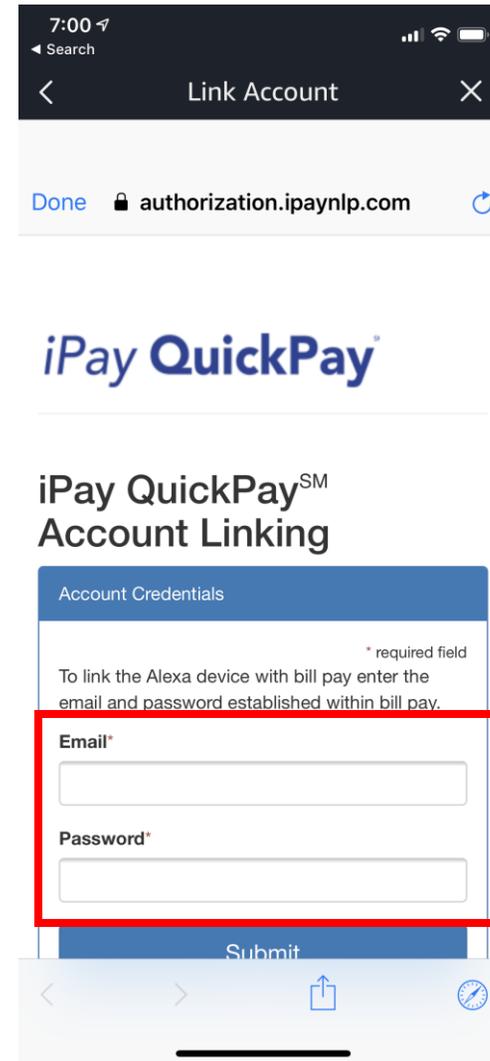

Search for the "iPay QuickPay" skill seen below.

Select "Enable to Use"

Enter the email address and password you selected in the Bill Pay system.

Create a 4-digit PIN to use with Alexa.

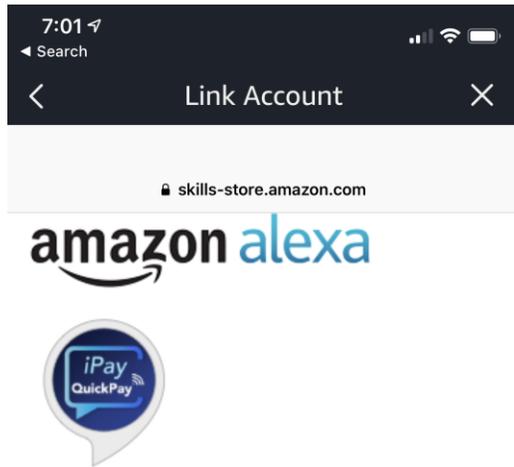

The screenshot shows the 'Link Account' page in a mobile browser. The URL is 'authorization.ipaynlp.com'. The iPay QuickPay logo is at the top. Below it, the heading 'iPay QuickPay<sup>SM</sup> Account Linking' is displayed. A blue box titled 'Create 4 digit PIN' contains the following text: '\* required field' and 'Alexa will ask for this PIN each time you access bill pay using an Alexa device.' Below this is a text input field labeled '4 digit PIN\*' and a blue button labeled 'Create PIN'. The input field and button are highlighted with a red border.

Then accept the terms and conditions.

The screenshot shows the 'Link Account' page in a mobile browser. The URL is 'authorization.ipaynlp.com'. The iPay QuickPay logo is at the top. Below it, the heading 'iPay QuickPay<sup>SM</sup> Account Linking' is displayed. A blue box titled 'Terms and Conditions' contains the following text: 'Jack Henry & Associates, Inc., is the developer of iPay QuickPay ("Developer"). Developer will have access to information you provide through use of iPay QuickPay, such as the PIN you create when linking your account to an Amazon Alexa enabled device and the instructions you provide in making payments, such as the payee's name, payment details, and amount. We are not responsible for any loss of funds or information that may be transmitted to or from the service provider. For more information, please visit: <http://www.usbank.com/gp/cus/m/01/jays.nl?nodeId=201809740>. Developer will have no responsibility or liability as a result of any acts or omissions of Amazon Digital Services LLC or your use of Alexa in making bill payments.' Below this text is a blue button labeled 'I Agree, Link Account'. The button is highlighted with a red border.

Finally, you will be notified that QuickPay has been linked.

**iPay QuickPay<sup>SM</sup>** has been  
successfully linked.

What to do next:

- Try saying: *"Alexa, open iPay QuickPay."*
- Close this window to return to the skill page.

From here, you simply need to have Alexa open iPay QuickPay. Alexa will ask you for your 4-digit PIN and you will be able to utilize the service.

You can say "Help" at any time and Alexa will be able to assist with the skill.

In order to re-link your account or change a password, you will find new links in the "Voice bill pay" section of the "My account" tab within Bill Pay.
