BEWARE of Skimmers!

We've received reports of skimmers in some local communities and we want this to be your reminder to **pay attention** when visiting an ATM by keeping your eyes peeled for anything that appears unusual.

As a reminder, a skimmer is a fraudulent card reader and/or camera used to steal your card information at an ATM.

Some skimmer signs to look for :

- Try jiggling the card reader to see if it's loose.
- Look for signs of glue around the reader.
- If the keypad feels "off" or the buttons are unusually spongy or uneven, the keypad may be fake.
- If anything seems "off", please call or step into the financial institution to report it.
